

Counselor's Corner

SEPTEMBER

Help your child get organized for the best start to a great school year!

No matter what grade your child is in, organization is key. The following tips can help:

1. Label all items! This includes lunch boxes, backpacks, jackets, drink containers, sweatshirts, etc.

2. Set up routines. Help your child find a quiet place to study or do their homework that can be used every day at around the same time.

3. Choose storage spots. Have your child put their backpack in the same spot every day. Keep extra school supplies such as pencils and erasers in their study space.

4. Clean out their backpack and look in the homework

folder or agenda planner daily to make sure you know about upcoming events and/or work!

Did you know?

students who are well organized are more likely to succeed in school.

Welcome to an exciting new school year!
