

Attention Please: Consumables are needed for hands-on science labs at PWE!

We are very excited about offering hands-on science labs in every class at PWE. Would you be able to help us gather some needed supplies? We would very much appreciate you looking around the house for items on the list that you may already have or those you wouldn't mind picking up when you are at the store. Items can be dropped off in the front office and placed in the "Science Supply" bin. Thank you for supporting our scientists at PWE.
