MEMORANDUM

TO: Secondary Career and Technical Education Directors

FROM: Dr. Eric Hall, Chancellor for Innovation

DATE: August 19, 2019

SUBJECT: Parent Survey of Public School Students (Grades 6-12) about Career and Technical Education

This summer, the Florida Department of Education has a unique opportunity to take a look at career and technical education as it is offered in the State of Florida. A short survey has been designed for the parents of public middle and high school students, which should take at most 10 minutes to complete. The survey will take a look at the child's participation, experiences, and opinions on career and technical education programs like culinary arts, manufacturing, digital technologies and more. Parents can take the survey whether their child is in a CTE program or not. Responses will remain completely confidential. Names and other identifying information will not be requested, and all the results will be analyzed in such a way that responses will not be linked to an individual.

The survey is accessible at the following link: <https://www.surveymonkey.com/r/BZC6G88>.

We ask that you circulate the above link, which includes the above information, to your parent distribution lists. Participation is critical as it will serve to identify areas for improvement.

If you have any questions about this survey, please contact Tara Goodman at tara.goodman@fldoe.org or 850-245-9001.
